# A CORRECTION TO “PATTERNS AND TRENDS IN RESEARCH ON EXTERNAL PUBLIC DEBT MANAGEMENT”

## Correction:

In the LITERATURE REVIEW section of this article, the following adjustments were made:

In paragraph 7, the following sentences were added: “Empirical evidence also suggests that fluctuations in the money supply and exchange rates can significantly affect a country’s ability to service its external public debt, especially in developing economies (Aid & Benelbar, 2023)” and “Moreover, studies underline the necessity of introducing adaptive management practices within public financial institutions to ensure responsive and efficient handling of external public debt (Grynko & Gviniashvili, 2015).”

In paragraph 8, the following sentence was added: “An important factor affecting external debt dynamics in Ukraine is the functioning of systemically important domestic banks, which influence both the demand for sovereign borrowing and its sustainability (Buriak et al., 2015).”
